Memorandum

U. S. Secret Service

TO : Chief

DATE: January 15, 1964

FROM : SAIC Osborne - Denver

SUBJECT: Assassination of President Kennedy

Further reference is made to your request to review some color photographs held by Mr. Robert Earl Croft, covering the Presidential Motorcade in Dallas, Texas, on November 22, 1963.

Mr. Croft turned over the color transparencies today and we have reviewed the entire roll of film. Only three of the photographs are of the Presidential Motorcade, all the other pictures in the group covering subjects completely unrelated to the November 22 incident.

It is my opinion that these photographs have no value to us. Two pictures show the Presidential limousine, and the other covers only the advance motorcycles. The two of the Presidential limousine clearly show the occupants, but do not show agents in the follow-up car nor do they portray any unusual activity which appears to be related to the attack.

Rolland H. Osborne
Special Agent in Charge
